CASE B — Odoo + GitHub Projects

Odoo provides PM/CRM/HR/finance; GitHub Projects provides engineering execution.
 Communication and docs stay lightweight (Slack/Discord + Odoo Documents / Notion).

Reference Stack

Domain	Primary Tool	Notes
Business PM, CRM, HR	Odoo Community self-hosted on Hetzner	See PROFORMA-01 for infra cost
Engineering tracking	GitHub Projects + Issues	Included with GitHub repo

Docs	Outline self-hosted or Notion	Lightweight setup
Communication	Slack Free / Pro or Discord / Mattermost self-hosted	
Time tracking	Odoo Timesheets module	Free with Odoo Community
Forms / surveys	Odoo Surveys	Free with Odoo Community
Diagrams	Excalidraw self-hosted	Free

 Odoo replaces 5–8 SaaS tools (Jira, Harvest, Productboard, Tally, partial Confluence, partial CRM, partial Workspace), at the cost of self-hosting it. Refer to **PROFORMA-01** for Odoo infra cost.
